

Custom-Cell™ Products

BioreclamationIVT is an industry leader in providing *in vitro* ADME-Tox products to biotechnology and pharmaceutical companies for over 20 years. We are experts in producing primary cells and subcellular fractions, from both client-supplied tissue and tissue we acquire, prepared to your specifications.

Custom-Cell Product Program

- Adherent or suspension hepatocyte cultures
- Cryopreserved cell preparations
- Subcellular fractions from a variety of organs, tissues, and cell lines*
- Primary cell cultures from many different tissues
- Custom sizes of media
- Custom product characterization
- Custom preparations of whole animal tissue or bone extraction

* Upon availability of tissue/organ of requested species

Our Volume Saves You Money

We process large amounts of donor tissue a week, so there's a good chance we can combine your custom order with others, or with scheduled isolations, and pass the savings on to you. Our expertise allows us to maximize production from all tissue. As a result, extra vials from previous custom orders may be available for purchase from our custom products inventory. Or, request a Custom-Cell quote today.

Products by Tissue Source

Our expertise in manufacturing cell-based products enables us to prepare custom orders from virtually any tissue, organ or species. We have successfully produced sub-cellular fractions from a variety of tissue, including:

- Bladder
- Brain
- Breast
- Cecum
- Colon
- Heart
- Intestine
- Kidney
- Liver
- Lung
- Muscle
- Prostate
- Skin
- Stomach
- Spleen
- Testes

Additional Custom Options for Your Research

- Cryopreserved hepatocytes produced in a custom cryopreservation medium
- Custom preparations of *InVitroGRO*™ hepatocyte medium
- Fresh animal hepatocyte isolations on customer-specified dates
- LiverPool™* cryopreserved hepatocytes with specific donor requirements

Each custom request is handled with the highest degree of customer and technical support. All custom preparations are made to your specification, with our promise to provide an on-time, high-quality product.

* The process for producing the LiverPool™ pooled human hepatocyte products is covered by one or more U.S. or foreign patents and patent applications, including U.S. Patent No. 7,604,929.

Examples of species we work with:

Rodents & Pig

- 129Sv mouse
- BALB/c mouse
- B6C3F1 mouse
- C57BL/6 mouse
- DBA/1J mouse
- Domestic pig
- Dunkin-Hartley guinea pig
- Fischer 344 rat
- Gottingen minipig
- Han Wistar rat
- Lewis rat
- Long Evans rat
- NMRI mouse
- Nude (Neu) hairless mouse
- Swiss albino mouse
- Yucatan minipig
- Zucker fatty rat

Primates

- African green monkey
- Baboon
- Cynomolgus monkey
- Marmoset monkey
- Rhesus monkey
- Squirrel monkey

Other

- Cow
- Dutch belted rabbit
- Goat
- Golden Syrian hamster
- Mongolian gerbil
- Sheep
